Job Duties:

Assemblers and Finishers in this group operate machines or use hand tools to cut, shape and fit materials to form parts and to fabricate components or products and load supplies into hoppers of dispensing units or manually align, feed or otherwise place materials into machines.

Assemblers and Finishers in this group screw, clip, glue, bond, weld or otherwise assemble parts and components to form final products and sand, trim, grind or clean products into final form using hand tools. They clean work stations and remove scraps, dust, shavings or other by-products from machinery and surrounding areas and may also make routine changes of dies, nozzles or other machinery attachments as required.

Inspectors in this group check manufactured items for defects and for conformance to specifications, visually or using sample models and instruments and affix seals or tags to approved items and return defective products for repair or recycle. They also complete reports on product inspection.

Working Conditions:

Assemblers in this group usually work in a conventional controlled environment such as an office, hospital or school. Work is done with equipment, machinery or power/hand tools that could cause an injury.

Career Pathways:

There is little or no mobility among the various Assemblers and Inspectors in this group. Progression to supervisory positions is possible with experience.
