### Job Duties:

Transportation Route and Crew Schedulers review schedule requisitions, passenger counts and cargo, running times, distances, personnel availability and other pertinent information to establish schedule parameters and design new or modify existing schedules using computer software or other methods. Transportation Route and Crew Schedulers incorporate into route

plan factors such as peak travel periods, holidays, special events and construction with emphasis on time and cost efficiency and assign personnel to equipment and routes and schedule work shifts. They compile equipment and personnel records, including hours in service, distances, maintenance, repairs required and other data, to produce operating reports. Transportation Route and Crew Schedulers also may prepare user guides and other public service information.

### Working Conditions:

Work is typically performed in a structured environment, such as an office.

### Career Pathways:

Mobility is limited due to the requirement of specific transportation sector experience. Progression to supervisory positions is possible with experience.

Transportation Route and Crew Schedulers are employed by municipal transit commissions, truck, delivery and courier companies, railways, airlines and by other transportation establishments in both the private and public sectors. Below are potential career pathways for transportation route and crew schedulers:
