

# What is WE Value?

Settlement success. Together.

The **WE Value Partnership** connects newcomers to services, opportunities, and people using innovative technology while capturing data to provide insights into the regional newcomer population.

## The WE Value Settlement Assessment

A holistic and standardized needs and assets assessment with a customized settlement plan for newcomers.

## The WE Value Partner Portal

Allows partners to upload their organization and program information, which can be used when creating settlement plans, and see the referral details.

## The WE Value Client Portal

Clients can use this app to access their own information and profile. They can view a digital version of their settlement plan, search through resources, and learn more about opportunities in their region.

## The K2 Pathway to Settlement System

The core technology that makes WE Value possible is a custom designed client management system which houses the assessment questionnaire, the settlement plan builder and both the Partner and Client Portals.

### FOR NEWCOMERS

This means less confusion, more confidence and increased self worth through streamlined experiences, fruitful community connections and a customized settlement plan.

### FOR PARTNERS

This means streamlined processes and enhanced experiences, all toward greater integration, welcoming communities and the success of newcomers.

### FOR THE COMMUNITY

This means access to assets, skills, talents and gifts of newcomers, as well as real-time place-based and standardized data about newcomers in the region.

### WE VALUE HOST ORGANIZATIONS

Windsor-Essex, Sarnia, London

Ottawa

Leamington
